Forward

Although a faculty strike threatened the Williamsport Area Community College with crippling chaos, suspicion and disorganization, the phrase "All Together" ironically fits.

Faculty, administration, and students have learned through first-hand experience that it takes mutual concern and respect to operate a college community successfully. Education is the mortar with which we build the future. College provides the student with a mirror through which he can objectively look at himself, learn responsibility and achieve maturity. The mirror can not be clouded by such suspicion and resentment, or the whole purpose of education is lost.

So it's all together now, working harmoniously to make WACC a solid institution which will provide society with refined talent.

by Bobbi Updegraff

On occasion there comes along a personality who really "puts it all together." Such a person is Bobbi Blair Updegraff.

During four short semesters, Mrs. Updegraff has achieved a number of enviable accomplishments. She has guided two publications of the **Montage;** she is directly responsible for the survival of the **Spotlight,** which for some time has been published bi-monthly without the aid of a faculty advisor; she has to her credit a published article in the December, 1973, issue of **The Pennsylvania Professor;** and she has been cited in **Who's Who In American Junior Colleges.** Bobbi has accomplished all that in addition to maintaining a high quality point average, to being employed, and managing to find time to squeeze in a wedding in 1973.

Bobbi Updegraff is the quality personality which epitomizes every member of the student body at the Williamsport Area Community College. Like Bobbi, the students are doers, and it's her kind of individuality which will indeed put it all together. It's with sincere appreciation, then, that the 1974 **Montage** is dedicated to Bobbi Blair Updegraff.

Service and Operation

we'll always remember

Jay Ramson Tyler, twenty-nine year old instructor of fourth semester in Service and Operation of Heavy Equipment, was killed in a three-car collision on March 12, 1974. To those of us who knew him, he was an excellent instructor, but better yet, he was a friend, someone who really cared about people, someone who gave advice and criticism when it was needed. Jay was chiefly responsible for getting the fourth semester hopping, and more than one time he took his work home with him at night. We have lost a talented teacher and, most important of all, a good friend.

On April 1, 1974, Dr. William H. Feddersen of Clarinda, Iowa, assumed responsibility as the second president in the nine-year history of WACC. Dr. Feddersen replaced Dr. Kenneth E. Carl, who resigned unexpectedly in June of 1973.

Born in Clinton, Iowa, Dr. Feddersen graduated from high school at Thomas, Ill., and from the University of Illinois at Urbana. He received his doctorial degree last year.

Dr. Feddersen has been active in community affairs at Clarinda, including serving on the legislative affairs committee of the Chamber of Commerce, on the Clarinda Facilities Committee to obtain a community center, and on the Clarinda Fine Arts Council Concert Association. He is a member of the American Association for Higher Education and the American Association of Community and Junior Colleges. Dr. Feddersen is also a member of Phi Delta Kappa.

The Board of Trustees of the Williamsport Area Community College reached a unanimous decision to recommend Dr. Feddersen's election to his post on March 15, 1974, a decision which is a giant step toward bringing it all together.
